

Junior
AchievementTM
of Southwest Florida

Our Mission is to inspire and prepare young people to succeed!

The Moments Students Carry Forward

This school year, teachers across Southwest Florida made room for more than traditional academics. They made room for career conversations, hands-on experiences, for students to ask questions about their future, and so much more!

Because educators welcomed Junior Achievement into their classrooms, students practiced real-world skills that often are not taught in textbooks alone. They explored careers, learned how money works, built communication and problem-solving skills, and connected education to opportunity in tangible ways.

To every teacher, volunteer, school partner, and supporter who helped make these moments possible, **thank you for investing in futures that are still taking shape.**

Follow along and see how we are shaping the next generation together!

Building Skills for Beyond the Classroom

The Role Only JA Is Positioned to Play

The world students are preparing to enter is evolving quickly. Artificial intelligence and automation are reshaping industries, careers, and the skills young people will need to succeed.

That is why Junior Achievement of Southwest Florida is focused on more than traditional learning. **Under Cheryl's leadership**, we are leaning into the unique role only Junior Achievement can play by combining hands-on learning, career-connected experiences, and valuable credentials that prepare students for what comes next.

Because preparing students for the future is not just about keeping up. It is about helping them move forward with confidence.

Click below to help students build skills that last beyond the classroom.
