Financial Futures Start Early

October is National Financial Planning Month, a perfect time to start real conversations with young people about money, planning, and their future.

When students gain financial literacy early, the impact is real. In a recent classroom visit, **85% of students said they felt ready to take charge of their future.**

These are not just numbers. They are proof that the lessons stick and the outcomes matter. Want to expand this impact? Help bring JA to more classrooms across Southwest Florida.

JA Inspire Virtual Career Fair

Opportunities for Lee County Students

On November 6, all Lee County 8th grade students will log on for our **JA Inspire Virtual Career Fair**, a milestone event made possible by passionate local volunteers and business partners.

This immersive experience introduces students to in-demand industries and helps them understand what it takes to succeed in the workplace. It is an opportunity that opens eyes and shapes futures, and it could not happen without your support.

Thank you for helping us make career education real for thousands of students across our region!
