

Junior AchievementTM of Southwest Florida

Our Mission is to inspire and prepare young people to succeed!

Small Actions. Big Futures.

Opportunities for the future grow when a community decides to invest in them.

Every day, students across Southwest Florida are developing the skills, confidence, and connections they need to build successful futures. That progress is fueled by people who choose to volunteer, give, advocate, and stay engaged.

Whether you are new to Southwest Florida or have called it home for years, there is a place for you to make an impact.

The best time to get involved isn't someday, it's today.

Choose How to Help a Future Grow

Real Skills. Real Credentials.

Through the JA SWFL Pre-Apprenticeship Program, students gain hands-on experience, industry exposure, and valuable credentials that prepare them for careers in high-demand fields.

These experiences help bridge the gap between education and employment while giving students the confidence to take their next step. In fact, **95%** of students in last year's pilot program secured careers in the trades industry.

As technology, AI, and automation continue to reshape the workforce, students need more than knowledge alone. They need practical experience, industry-recognized credentials, and skills that transfer across careers and industries.

That is exactly what this program delivers.
